

Roller Wiki

Welcome to the [Apache Roller](#) Wiki, providing additional information about the blog server.

Please see the [main website](#) for Apache Roller downloads and main documentation.

Here on the wiki, we have:

- [How to build Apache Roller from source code](#)
- [How to Contribute to Apache Roller](#)
- [Developer's Resources](#) - guides and presentations about Roller development

And links to non-Apache websites with useful and interesting Roller resources:

- [Apache Roller 4.0 Beginners Guide](#) - by Alfonso Romero (Packt Publishing 2009)
- [X-Ray](#) - Blog statistics/analytics generator by Adam Bien, focus of his [book](#) (May 2011)
- [Apache Roller Extras](#) - Additional template themes ([screenshots](#)) and plugins not bundled with the standard Roller download.
- [Apache JSPWiki Plugin for Roller 5.1](#) - By Dave Johnson, allows for using JSPWiki syntax with Roller blog entries.
- [RollerCage](#) - Captcha plugin for Roller comments by Alex Trezvy, using [Cage](#) library.
- [Vagrant-Roller](#) - By [Edd Grant](#), automates installation of Roller on a VM using [Vagrant](#) and [Ansible](#).
- [RollerSetup](#) - Ant script by [Kohei Nozaki](#) that handles supplemental Roller installation tasks.
