

# Apache Geronimo v1.1 - User's Guide

This page is an attempt to organize and consolidate all the documentation for Apache Geronimo v1.1. There is a list of topics to be covered and the discussion about the content is being carried on the developers mailing list [dev@geronimo.apache.org](mailto:dev@geronimo.apache.org), for subscription information refer to the [Mailing Lists](#) at the Apache Geronimo Web site.

The following is a proposed table of contents to address as many topics as possible on Apache Geronimo. This structure should be the foundation for upcoming releases of Geronimo. This is a work in progress and collaboratively constructed through the Apache Geronimo community, **your contributions to this documentation are welcome**, this is a community effort.

1. [RELEASE-NOTES-1.1.TXT](#)
2. [RELEASE-NOTES-1.1.1.TXT](#)
3. [Summary of changes](#)
4. [Quick start - Apache Geronimo for the impatient](#)
  - [Getting the software](#)
  - [Start the server](#)
  - [Create and deploy a sample application](#)
5. [Installation](#)
6. [Administration](#)
  - [Administrative tasks](#)
    - [Administering applications](#)
      - [Installing and removing applications](#)
      - [Starting and stopping application modules](#)
    - [Administering the Apache Geronimo Server](#)
      - [Adding new listeners for the Web containers](#)
        - [Add new AJP listener](#)
        - [Add new HTTP listener](#)
        - [Add new HTTPS listener](#)
      - [Configure log level](#)
        - [Derby Log Viewer](#)
        - [Log Manager](#)
        - [Server Log Viewer](#)
        - [Web Access Log Viewer](#)
      - [Configuring a remote Apache HTTP server](#)
        - [Configure Apache HTTPd as a reverse proxy \(mod\\_proxy\)](#)
        - [Configure Apache HTTPd with Jakarta Tomcat Connector \(mod\\_jk\)](#)
      - [Configuring the JMS server](#)
      - [Display JVM information](#)
      - [Monitor Server status](#)
      - [Performance monitoring](#)
      - [Starting and stopping the server](#)
    - [Configuring security](#)
      - [Administering certificates](#)
      - [Administering security realms](#)
        - [Certificate Properties File Realm](#)
        - [Database \(SQL\) Realm](#)
        - [LDAP Realm](#)
      - [Administering users and groups](#)
    - [Configuring services](#)
      - [Adding archives to the Geronimo repository](#)
      - [Configuring database pools](#)
        - [Create new database pools](#)
        - [Import database pools from JBoss 4](#)
        - [Import database pools from WebLogic 8.1](#)
        - [Removing database pools](#)
      - [Configuring JMS](#)
  - [Configuring DB2 datasource](#)
  - [Configuring Geronimo as a Windows Service](#)
  - [Configuring Portals - Liferay](#)
  - [Configuring Virtual Hosts in Geronimo-Jetty](#)
  - [Configuring Virtual Hosts in Geronimo-Tomcat](#)
  - [Create a database](#)
  - [Geronimo Administration Console](#)
  - [Running Geronimo as a non-root user](#)
  - [Tools and commands](#)
    - [client.jar](#)
    - [deploy](#)
    - [Deployer tool](#)
    - [geronimo](#)
    - [shutdown](#)
    - [startup](#)
    - [upgrade.jar](#)
7. [Deployment plans](#)
  - [Deployment Plans-Level-1](#)
  - [geronimo-application.xml](#)
  - [geronimo-application-client.xml](#)
  - [geronimo-ra.xml](#)

- [geronimo-web.xml](#)
