Apache Camel 2.8.6 Released

The Camel community announces the immediate availability of a new bug fix release camel-2.8.6. This release is issued after 2 months of the 2.8.5 release. During this period the camel community continued to develop and released a new major version camel-2.10.0.

The camel-2.8.6 release comes with 31 issues fixed. The artifacts are published and ready for you to download download either from the Apache mirrors or from the Central Maven repository. For more details please take a look at the release notes.

Many thanks to the Camel community for making this release possible.
