

MRUnit with Avro

Example with the new API

```
Job job = new Job();
mapDriver = MapDriver.newMapDriver(mapper).withConfiguration(job.getConfiguration());
job.setInputFormatClass(AvroKeyInputFormat.class);
job.setOutputFormatClass(AvroKeyOutputFormat.class);
AvroJob.setInputKeySchema(job, MyAvro.SCHEMA$);
AvroJob.setMapOutputKeySchema(job, MyAvro.SCHEMA$);
AvroJob.setOutputKeySchema(job, MyAvro.SCHEMA$);
```
