

FINERACT CN (DEPRECATED)

NOTICE: Fineract CN has been archived by the project as of January 2024.

NO contributions are possible and no release has been made.

PLEASE NOTE: In May 2023, the Project Management Committee voted to DEPRECATE this project.

"The Fineract community agrees that despite some good ideas and early interest, the lack of a formal release of FineractCN after five years indicates that the project is not a major focus of the community. Therefore the community will deprecate the FineractCN project, removing language from the front landing page and some wiki pages. If there is NOT renewed interest before October 1st then the vote is to remove and archive the FineractCN project." (PMC, June 1, 2023) <https://lists.apache.org/thread/zz9jhzs0d0fnjsr0p5b943t2yzmffvop>
