

Roadmap 2017

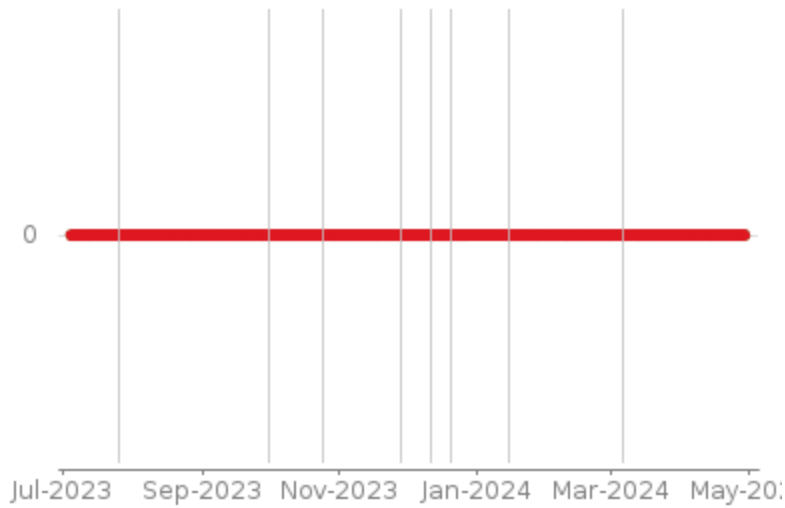

Procedure:

- Proposed issues start in a ____-candidate Fix version.
- Once a proposed issue has been seconded, after 3 days it can be moved from the ____-candidate FixVersion to the ____ Fix Version.

3.5.0 scope

Theme: A no-op drop in replacement of Eclipse's Aether project for the migrated code now known as Apache's Maven Resolver. Additionally some other orthogonal changes around logging colourization and some launcher script bug fixes
