

Index

This space groups articles for documenting the ongoing work currently carried out in the **trunk**, this is Geronimo in the making.

- Apache Aries Samples running in Geronimo 3.0
- Apache Geronimo Inventory
- Apache Geronimo With A Monitor Component (JMX and JConsole)
- AsyncHttpClient
- Building Apache Geronimo
- Caching
- Client JNDI Names
- Clustering
 - Clustering Configuration for Jetty
 - Clustering Geronimo with Open Terracotta
 - Clustering - Initial discussion
 - Geronimo Clustering with Gcache
 - Geronimo Tomcat Context Level Clustering - Sample Application
 - Geronimo Tomcat Host Level Clustering - Sample Application
- Code guidelines on Web accessibility (Admin Console)
- Coding standards
- Coding standards ES
- Committing patches to the Subversion Repository
- Configure allowLinking for Tomcat contexts
- Developing Geronimo in Eclipse
- Extensible Administration Console
 - Administration Console Extension Developer's Guide
 - Administration Console Extension User's Guide
- GBeans
 - GBean Annotations
- GBeansArticle1
- Geronimo Architecture
 - 1 - Architecture Introduction
 - 2 - GBeans Architecture
 - 3 - Geronimo Kernel
 - 4 - Geronimo Module View
 - 5 - Deployment Subsystem
 - 6 - Uses View
 - Architectural diagrams
 - System context
- Geronimo Deployment Plans - How to Simplify Creation or Updation?
 - Admin Console Wizard for auto creating Geronimo Deployment Plan - Progress
- Geronimo Eclipse Plugin (GEP) Roadmap
- Geronimo Eclipse Plugin (GEP) Testsuite
- Geronimo v1.1 User Requirements
- Getting Source Code from Subversion
- How GShell works with Geronimo kernel
- How to prepare and contribute patches
- Installed size comparison (1.1.1, 1.2, 2.0)
- Integrating Jetspeed with Geronimo
- Integration Testing
- JACC Guide
- Java EE 5 Annotations
- Java EE 6 RoadMap
- JIRA
- JSR 77 Performance Monitoring (Stats Interfaces)
- Maven Generated Documentation
- Mega Index
- Monitoring and Management Service
- Obscuring Passwords
- OSGI conversion tips
- Plugin Guide
- Project Guidelines
- Roadmap for 2.1
- Road map for Java EE6 Web Profile
- Security Review
- Single Sign On
- Spec Versioning
- Steps to create a plugin repository for a new Geronimo release
- Subversion Client Configuration
- Test Drive Geronimo EJB Clustering
- Tests in Testsuite
- Tomcat v6 game plan
- Tools
- Tuscany plug-in for Geronimo
- UML
 - JSR-88 1.2
 - a) Use Cases
 - b) Tomcat Deploy Interaction Diagram (Current Implementation)

- c) Tomcat Deploy Interaction Diagram (Proposed Implementation)
- d) Annotations Class Diagram
- Module-level class diagrams
 - geronimo-activation
 - geronimo-assembly-plugin
 - geronimo-axis
 - geronimo-axis-builder
 - geronimo-axis-client
 - geronimo-axis-server
 - geronimo-client
 - geronimo-client-builder
 - geronimo-common
 - geronimo-common-propertyeditor
 - geronimo-connector
 - geronimo-connector-builder
 - geronimo-connector-outbound
 - geronimo-console-core-jms
 - geronimo-console-framework
 - geronimo-deploy-jsr88
 - org.apache.geronimo.deployment.plugin
 - org.apache.geronimo.deployment.plugin.application
 - org.apache.geronimo.deployment.plugin.client
 - org.apache.geronimo.deployment.plugin.factories
 - org.apache.geronimo.deployment.plugin.jmx
 - org.apache.geronimo.deployment.plugin.local
 - org.apache.geronimo.deployment.plugin.remote
 - geronimo-deploy-tool-cli
 - geronimo-kernel
 - geronimo-kernel-config
 - geronimo-kernel-log
 - geronimo-system-main
 - JSR-88 Deployment API packages
 - J2EE Product Provider classes
 - J2EE Tool Provider classes
 - Shared classes
- Use cases
 - Geronimo interfaces
 - Deploy module
 - Deploy class diagram
 - List modules
 - Startup
 - Startup class diagram
 - Startup interaction diagram
 - Placeholder for additional use cases
- Using Dojo in Geronimo
