

Upgrade from 2.0.9 to 2.0.10

1. [Source changes](#)
 1. [POM](#)
 2. [Files](#)
 3. [Classes](#)

Source changes

POM

In the root `pom.xml`:

- change parent/version from 2.0.9 to 2.0.10
- change properties/syncope.version from 2.0.9 to 2.0.10

Files

Add

```
jwsAlgorithm=HS512
```

to `core/src/main/resources/security.properties`.

Replace the following files with their 2.0.10 counterparts (re-apply any customization previously made):

- [enduser/src/main/webapp/app/css/app.css](#)

Classes

[SYNCOPE-1356](#) has restored the membership removal features of `LDAPMembershipPullActions`; this implied some behavioral changes with the `SetUMembershipJob` class: if your code uses the latter, please ensure to change

```
jobMap.put(SetUMembershipsJob.MEMBERSHIPS_KEY, memberships);
```

with

```
jobMap.put(SetUMembershipsJob.MEMBERSHIPS_BEFORE_KEY, Collections.emptyMap());  
jobMap.put(SetUMembershipsJob.MEMBERSHIPS_AFTER_KEY, memberships);
```

in order to keep the old behavior.
